Do you suffer from 3 or more of the following Signs and Symptoms:

- Chronic Daily Tension Headaches
- Migraines
- Clicking and popping jaw joints
- Limited opening
- Deviations on opening
- Chronic Neck or shoulder pain
- Worn or missing teeth
- Tired sore jaw muscles
- Tingling in the thumb and forefingers
- Ringing in the ears (tinnitus)
- Itchy, plugged ears
- Dizziness (vertigo)
- Speech and problems swallowing

If YES then, it may be due to a BAD BITE...

90% of all head and neck pain comes from your muscles and a BAD BITE is a leading cause of chronic muscle pain. Dentists like Dr. Willoughby utilize state-of-the-art computer driven technology and TENS to diagnose and treat Cranio Mandibular Dysfunction.

If you've tried everything else and are still in CHRONIC PAIN call our office today and schedule a Comprehensive Neuromuscular Exam.

"Dr. Willoughby and his staff exceeded ALL expectations - Great Advice, Fantastic Results!"
